## AUSTRALIA'S RACING INDUSTRY

Horse racing in Australia is a national passion. Beyond our famed MELBOURNE CUP, Australia hosts 105 races worth more than \$1m annually. (That's a \$1m race every 3.5 days!) In comparison, the next largest racing jurisdiction, the USA, hosts 69 a year.

# OUR STABLE

## **EDGE THOROUGHBREDS STABLE:**

Our EDGE THOROUGHBREDS stable includes a mix of racehorses, yearlings, weanlings and broodmares. Our stable objectives include re-educating lightly tried horses, acquiring yearlings with pedigree and potential, and breeding and raising our own horses.

In all cases we align our stable to thoroughbreds with an A rated nick or better. While not a guarantee of success, a pedigree and cross with proven racing achievements is a strong indicator of potential and we will couple this with traditional conformance assessments and advice from our Bloodstock Advisor.
